weight on discharge(in grams): 1550 grams

Net weight gain/loss since admission(in grams): 10

Type of discharge : Discharged by facility staff

In case of referral

Name and address of facility referred to:

Reason for referral: _____

DISCHARGE CHECKLIST FOR KMC UNIT

- 1.** Stable and not on parenteral medication, the baby's general health is good and there is no concurrent disease such as apnoea or infection
- 2.** Maintaining temperature in the KMC position and mother's bed for 3 consecutive days at room temperature
- 3.** Gaining 15–20 grams per day for at least 3 consecutive days
- 4.** Accepting feeds directly from breast (preferable) or by spoon, paladai or cup, he is feeding well, and is exclusively or predominantly breastfed
- 5.** The mother is confident in caring for the baby and is able to come regularly for follow-up visits. At discharge, the mother and family members must be taught to ensure that the infant is nursed in a warm room and is breastfed (Given expressed milk using paladai or cup). They should be adequately told about hygiene, danger signs, follow-up visits, immunization and prompt care seeking at a health facility. KMC should be continued as long as required and baby and mother should not be discharged in a hurry.
