**Net weight gain/loss since admission(in grams):** -50

**Type of discharge :** Discharged by facility staff

### In case of referral

**Name and address of facility referred to:**

**Reason for referral:** \_\_\_\_\_

## DISCHARGE CHECKLIST FOR KMC UNIT

1. Stable and not on parenteral medication, the baby's general health is good and there is no

concurrent disease such as apnoea or infection

**2.** Maintaining temperature in the KMC position and mother's bed for 3 consecutive days at room temperature

**3.** Gaining 15-20 grams per day for at least 3 consecutive days

**4.** The mother is confident in caring for the baby and is able to come regularly for follow-up visits. At discharge, the mother and family members must be taught to ensure that the infant is nursed in a warm room and is breastfed (Given expressed milk using paladai or cup). They should be adequately told about hygiene, danger signs, follow-up visits, immunization and prompt care seeking at a health facility. KMC should be continued as long as required and baby and mother should not be discharged in a hurry.
